

## **Kenneth Bunn**

Kenneth's ongoing connection to SHS and active interest in current school developments continues to grow.

The school archives proudly hold the illuminated scroll of the School Hymn he created along with his 'Woodwork Books'. The school also holds a copy of the original hand written manuscript of his illustrated account of teenage South Australia in the 1950's-THE KANGAROO CONNECTION which includes Salisbury High School.

Kenneth returned to England in 1962 where his passion for travel led to the development of tourism companies including Visit Northumbria and Visit Yorkshire.

Kenneth Bunn Maps, tracks and trails have been a 'Way of Life' for Ken for as long as he can remember. He has written about and illustrated almost every walk he has ever done resulting in an unrivalled record of North Country Walks and History.

Kenneth continues to create and lead new walks throughout the region.

Following his first book for Trailguides', 'Walks Around Rothbury and Coquetdale', it is appropriate that his second book would highlight another unique Northumbrian landscape.

Hadrian's Wall Country seemed a natural choice since Ken has been walking in this area for over four decades. As mentioned in his previous book, only those who actually walked with Ken had access to his personal write-ups. Again, for the first time Trailguides give you eight of his favorite Wall Country Walks.
